The 5th Latin American Conference on Statistical Computing (LACSC 2020) will be held in Ciudad de México, México, from June 9 to June 11, 2020. This international conference is jointly organized by the Department of Statistics and the Department of Industrial & Operations Engineering of the Instituto Autónomo de México (ITAM), the Latin American Regional Section of the International Association for Statistical Computing (LARS-IASC) and the International Statistical Institute (ISI).

The theme of the conference is “Statistical Computing for Intelligent Decision Making”. The aim of LACSC is to foster the progress of the theory, methods and practice of statistical computing in Latin America, and to become the main meeting point of the statistical computing scientific community in LA. This year, the call of papers of the conference gives an account of the interest of academics, scientists and professionals in methodological aspects of statistical computing and relevant applications for the Latin American community.

LACSC 2020 invites to submit papers, contributed paper sessions and invited paper sessions before February 20, 2020. This is the call of papers and all the information is available at http://lacsc2020.itam.mx

You cannot miss LACSC 2020! The Local Organizing Committee is also organizing an interesting social program. Mexico City is the capital of the United Mexican States (official name of the country). Originally this city was
built on an islet where some natives found an eagle devouring a snake and was called Tenochtitlan. Chinampas for agriculture were built around it and became the capital of the Aztec Empire. With the arrival of the Spaniards in 1521, Mexico City fell under its dominance and became the center of the economic activity of the power of New Spain. Its outstanding colonial architecture earned it recognition as the City of Palaces. Currently, Mexico City stands in a valley surrounded by volcanoes, proud of its heritage, the product of the fusion of two cultures. It is the largest and most populous city in Latin America and one of the most dynamic capitals in the world; It has a large number of museums, theaters, concert halls, archaeological ruins, theme parks and recreational parks. Also, it offers a great gastronomic variety typical of all regions of Mexico and the world.
