Dear Colleagues,

This is the time of Covid-19 when everyone has to make an effort to stay home as much as possible. However, learning must go on.

From the platform of PISTAR, I am happy to share with you the commencement of a new initiative, the PISTAR International Training Program (a series of online training workshops during the coming months and years).

The Brochure for the First International Training Workshop on "Tidyverse ggplot2 for Elegant Data-Visualizations" is being presented.

I look forward to your active participation and support in order to make this initiative a success. Please do spread the word far and wide --- through WhatsApp, email, Facebook and through telephone calls to your colleagues and friends.

I am optimistic that, with your kind support, we will get not only participants from within Pakistan but also some international participants which will be the commencement of a new dimension for PISTAR, the brainchild of one of the most leading statisticians of Pakistan, late Professor Dr. Munir Ahmad.

With best regards,
Dr. Saleha Naghmi Habibullah
Professor of Statistics,
Kinnaird College For Women, Lahore, Pakistan
And
Honorary Director,
Pak Institute of Statistical Training And Research (PISTAR).
