

Data Science, Statistics & Visualisation (2022) is a mixed (physically and virtually) conference aimed at bringing together researchers and practitioners interested in the interplay of statistics, computer science, and visualization, and to build bridges between these fields for interdisciplinary research. This conference shall create a forum to discuss recent progress and emerging ideas in these different disciplines and encourage informal contacts and discussions among all the participants.

Presentations should thus be oriented towards a very wide scientific audience, and can cover topics such as machine learning and statistical learning, the visualisation and verbalization of data, big data infrastructures and analytics, interactive learning, advanced computing, and other important themes.

IMPORTANT DATES

- **January 15, 2022:** First Call for Contributed Papers.
- **January 31, 2022:** Abstract Submission.
- **April 1, 2022:** Earlybird Registrations.
- **April 30, 2022:** Deadline Abstract Submissions.
- **May 30, 2022:** Deadline Earlybird Registrations.
- **June 1, 2022:** Publication of Final Programme.
- **June 15, 2022:** Deadline Late Registrations.
- **June 27 - 29, 2022:** DSSV2022 Conference.
