The IASC-ISI Nomination Committee congratulates four new ISI elected members from IASC as a result of the second ISI election round in 2021: Kengo Kamatani (Japan), Luis Firinguetti (Chile), Angelos Markos (Greece), Christian Martin Hennig (Italy).

The 6th Latin American Conference on Statistical Computing

Title: The 6th Latin American Conference on Statistical Computing

Summary: The 6th Latin American Conference on Statistical Computing (LACSC 2022) will be held in Sao Paulo, Brazil, from March 16 to March 18, 2022. Only virtual format.

LACSC 2022 is jointly organized by the Department of Applied Mathematics and Statistics, University of São Paulo, and the Latin American Regional Section of the International Association for Statistical Computing (IASC-LARS). In this edition, LACSC will be held jointly with the 16th Brazilian Meeting of Bayesian Statistics (EBEB 2022) which is organized by the Brazilian Chapter of the International Society for Bayesian Analysis (ISBA).

IASC-LARS Webinars on Computational Statistics and Data Science

Title: IASC-LARS Webinars on Computational Statistics and Data Science

Summary: The IASC-LARS will be offering two webinars this fall. The first on Machine Learning for Data Science (Sep 27-30, 2021) and the second is on Data Visualization (Nov 22-24, 2021).

The IASC-LARS will be offering two webinars this fall. The first on Machine Learning for Data Science and the second is on Data Visualization:

Webinar 1: September 27-30, 2021. Machine Learning for Data Science. Instructors Rodrigo Salas, Javier López, Marvin Querales, Ayleen Bertini. Universidad de Valparaíso, Chile.

Registration at: <https://register.gotowebinar.com/register/8858121286906434319>

Webinar 2: November 22-24, 2021. Data Visualization: Theory and Applications. Instructor Natalia da Silva. Universidad de la República, Uruguay.

Registration at <https://register.gotowebinar.com/register/1393724862580276494>
